UISC: Universal Infotainment Systems Corporation Announces the listing of their Securities with OTC: BB

Naperville, IL.USA - ([BUSINESS WIRE](#)) — Universal Infotainment Systems Corporation – [UISC](#) (OTC.BB:UNIV), an in-vehicle navigation and infotainment systems innovator based in Naperville, Illinois, announced today that they have completed the process of listing their securities with the OTC.BB and that their Securities have began trading as of the first week of April 2009.

About UISC:

UISC develops leading edge In-Vehicle Infotainment and Navigation Systems that combine the benefits of the latest communications and computing technologies with vastly improved spatial data sources available from high resolution Satellite and Aerial photography. [UNS Labs](#) (the R&D—research and development—division of UISC) originally created [UIS Infotainment System](#) (product name) for [General Motors Arabia](#) to provide them with a leading edge in navigation technology over their competitors in the market. At present, UISC has decided to take this new product to the after-market level.

UISC's Chairman Mr. Emanuel G. Pavlopoulos commented. "At UISC we specialize in the development and marketing of innovative vehicle Navigation and Infotainment Systems and related technology products including solutions such as Fleet Management ([FMTS](#)), Tracking and Surveillance ([TS](#)), 3G and live video solutions, among other media elements. We are committed to delivering unparalleled high value, quality products and services, and we consciously strive to increase the worth of our company through innovation, imagination, and hard work." He further added, "above all, UISC seeks to provide products that meet or exceed expectations, believing that satisfied customers will be the company's main business driver. UISC/UNS Labs create Technologies and provide Solutions that will change, improve, and enhance the way we work and live in this Century."
