

## UISC: UNS Labs/USA to begin testing of Networks

Naperville, IL, USA - ([BUSINESS WIRE](#)) — Universal Infotainment Systems Corporation – [UISC](#) (OTC.BB:UNIV), an in-vehicle Navigation and Infotainment Systems Innovator based in Naperville, Illinois, announced today that the R&D division of UISC [UNS Labs/USA](#) has begun testing the presently available Wi-Fi and 3G Networks for implementation in the UISC product line. These Networks will be utilized for the Video/Telecomm and 24x7 customer Support Centers Technologies of the UISC products; [UIS Infotainment](#), [UIS FMTS](#) and [UIS TS](#). [UNS Labs](#) EU, Arabia, and Taiwan/ROC have completed testing with excellent results.

[James C. Beattie UISC's CEO](#) commented, "We are very pleased that we have come to this next milestone of our business roadmap. UNS Labs is right on track with our plans to expand the UISC business model for preparing and implementing the UIS product line in USA/EU/ARABIA/Taiwan. Presently we are finalizing contractual details for appointing a General Distributor for the United Arab Emirates and the Gulf Region for our UIS product line." He further added, "UIS Infotainment, UIS FMTS, and UIS TS are three unparalleled products each with their own value and applications. The UIS product line is unique in that it offers value across-the-board, from the consumer to the commercial fleets to the monitoring agencies that may require applications such as [UIS TS](#)."

### About UISC:

UISC develops leading edge In-Vehicle Infotainment and Navigation Systems that combine the benefits of the latest communications and computing technologies with vastly improved spatial data sources, available from high resolution Satellite and Aerial photography. [UNS Labs](#) Arabia originally created [UIS Infotainment System](#) (product name) for [General Motors Arabia](#). At present, UISC has decided to take this new product to the after-market level.
